

DIRECTORY OF MEDICAL INSTITUTIONS

The Institution Directory provides detailed information about each of the sites to help patients make more informed decisions about the care they receive. The Foundation does not endorse or recommend individual healthcare providers. You are responsible for interviewing and selecting a practitioner. The institutions listed vary greatly in size, staff training, and services offered. We are happy to discuss options with you for your specific situation, if needed. Healthcare provider information is supplied solely by the providers themselves. All information is self-reported and unverified. Clicking on the hyperlinks below will open new documents.

Hospitals listed here, including children's hospitals, accept patients of all ages, unless otherwise noted.

Alabama

[University of Alabama at Birmingham Children's of Alabama](#)

Healthcare provider information is supplied solely by the providers themselves and is not checked or warranted by The Marfan Foundation. The Foundation provides contact information for healthcare providers who are known to have seen patients with Marfan syndrome and related conditions. The Foundation does not endorse or recommend individual healthcare providers. You are responsible for interviewing and selecting the practitioner. By requesting healthcare provider resources you understand and agree that the Foundation and its affiliates are not responsible for any providers' services or lack thereof.
