

DIRECTORY OF MEDICAL INSTITUTIONS

The Institution Directory provides detailed information about each of the sites to help patients make more informed decisions about the care they receive. The Foundation does not endorse or recommend individual healthcare providers. You are responsible for interviewing and selecting a practitioner. The institutions listed vary greatly in size, staff training, and services offered. We are happy to discuss options with you for your specific situation, if needed. Healthcare provider information is supplied solely by the providers themselves. All information is self-reported and unverified. Clicking on the hyperlinks below will open new documents.

To view additional clinics that have not provided detailed information about their services and operations, click [here](#).

Hospitals listed here, including children's hospitals, accept patients of all ages, unless otherwise noted.

Alabama

[University of Alabama at Birmingham Children's of Alabama](#)
